Subject: SNURs and PFAS in containers
Attachments: FW: Inhance Technologies, LLC - Second response to request for information; FW: First Response to TSCA Section 11 Request to Inhance Technologies dated January 14, 2021

Tala,
Just to close the loop on this from earlier today - I tracked down the letters where the LC SNUR is referenced – see attached. ECRMD disagrees with the company’s argument that the PFAS are produced as impurities, and believe that the paper/analysis sufficiently addresses this point in its conclusion that that the PFAS are “manufactured”.
Thanks,
Ryan
